

Why did my arrow go there?

- Space between fingers and chin
- Snatching loose
- Raising bow hand
- Pinching arrow
- Dropping shaft hand
- Anchor point further back
- Not releasing string with all the fingers at the same time
- Over drawing - arrows too long

- Bow held too tightly
- Bow turned to the right
- Bow tilted to the right
- Jerking hand away from face on release
- Anchor point too far to right
- String hand not vertical
- Arrow creep - left and low

- Slackened grip
- Twisted bow hand
- Tilting bow to the left
- String held too deeply in the fingers
- Bad loose

- Dropping bow arm - holding aim too long
- Arrow creep - left and low
- Anchor point forward - under drawing
- Bad loose
- Bent arrows
- Altered bracing height
- Slipped centre serving
- Nocking point moved
- "Topping" - pressure by bow hand above centre of bow
